## Description

Optimized for use with the Epson range of SureColor SC-F inkjet printers and UltraChrome DS inks, DS Transfer Production Paper is unique to Epson and has been specifically developed for the volume production of textiles for fashion and soft signage applications.

DS Transfer Production Paper is lightweight and designed to dry quickly and avoid wet cockling. Its high ink transfer to textile substrates capability, even with heavy ink loads, maximizes ink use efficiency and produces consistent high quality, sharp images and vibrant colors. The excellent dimensional stability of DS Transfer Production Paper during the printing and ink transfer processes makes the paper easy to handle and reduces any potential waste of paper, ink, and textile while maximizing production.
