

NanoSaver™ Serialised Combination Laptop Lock

Next generation keyless security for ultra-thin devices

K63331EU

Product Description

Designed to fit the Kensington Nano Security Slot, the NanoSaver™ Serialised Combination Laptop Lock secures ultra-thin laptops, tablets and 2-in-1s with the same quality and strength that has made Kensington The Professionals' Choice™ for more than 25 years. Developed using strict specifications, patented technologies, and rigorous testing against tough environmental conditions, the NanoSaver™ Serialised Combination Laptop Lock provides next generation security for ultra-thin devices.

Features

- Serialised lock head makes retrieving the preset combination simple and easy
- Tough lock head with Cleat™ Locking Technology attaches to the Kensington Nano Security Slot™ found in ultra-thin laptops and tablets for uncompromised security
- Carbon steel cable is cut-resistant and anchors to desks, tables or any fixed structure
- Push-button design for one-handed engagement to easily attach the lock into the slot
- Verified and tested for industry-leading standards in torque/pull, foreign implements, lock life cycle, corrosion and other environmental conditions
- Register & Retrieve™ program allows you to look up forgotten combination codes
