| Manufacturer item no. | 6411B001 |
| EAN/UPC | 4960999902326 |

## Description

The PGI-72CO Chroma Optimizer for the PIXMA professional inkjet printer is a critical element to attaining professional print quality with accurate color and reduced metamerism, on coated papers. The Chroma Optimizer reduces the difference in ink droplet height to form a flat and smooth ink layer. The result is evenly reflected light, deep blacks, and bright, saturated colors.

## Main features

| | |
