

DisplayPort 1.2 (M) to VGA (M) passive unidirectional cable, 1.8m (6ft)

An essential DisplayPort to VGA cable for office, home and classrooms.

K33024WW

Product Description

An essential cable for conference rooms and educational environments, the Kensington DisplayPort 1.2 (M) to VGA (M) Passive Cable connects a DisplayPort equipped laptop to a monitor or projector with VGA input to deliver Full HD video. Mirror or extend your desktop for an expanded workstation or use to show a high-definition video presentation at school or work. This essential cable is tested to perform with Kensington docks – and is backed by a Kensington Limited Lifetime Warranty. Quality components include gold-plated connectors, flexible PVC jacket and inner & outer shielding to provide durability and improve the signal transmission.

Features

- Supports video resolution up to 1920x1200@60Hz and Full HD.
- Delivers the essential DisplayPort experience.
- Works with DP++.
- Buy with confidence – tested to work with projectors, monitors and Kensington docks.
- Good for home, office or classroom.
- Accommodates most setups.
- Works with Kensington docking station deployments.
